NEW 2018 COLLECTION

A product designed by **COSENTINO®**

**SILESTONE®**

## ***Reinventing Eternity***

The New Eternal Collection® delivers an interesting addition following the current trend of marble and elegant neutral spaces.

**Vibrant tones, reinventions of the classics, are now materialized in golden and elegant grey hues.**

Three new proposals with a wide colour range that are born with the aim of giving versatility, luminosity, and personality to both cold and warm spaces.

**Discover them all.**

### *Silestone Eternal Calacatta Gold*

Patterned with a blueish and grey vein plus golden shades, it is one of the most desired natural stones in history due to its whiteness.

Eternity and elegance.

### *Silestone Eternal Statuario*

A bluish white surface with light and bright veins in grey and pink hues. A statement of colour and harmony.

### *Silestone Pearl Jasmine*

Jasmine is a grey-veined white stone with an essence of extreme purity. Everlasting delicacy and strength.

### *Silestone Eternal Serena*

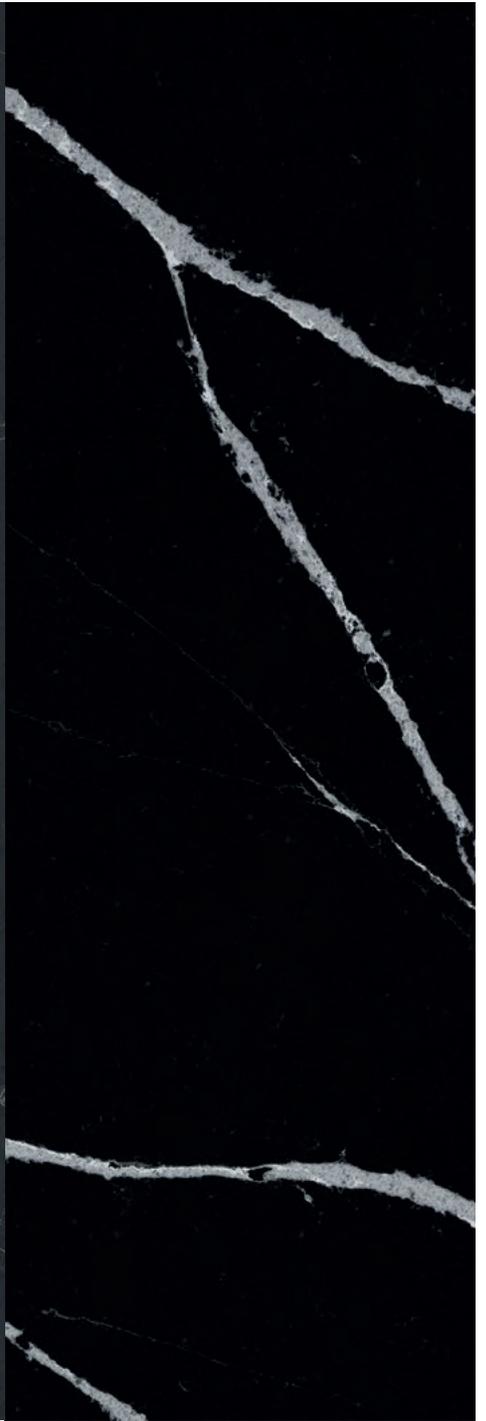

An earthy background with grey and green hues, slightly veined in pure white.

The sand finish of Serena evokes both softness and light.

### *Silestone Charcoal Soapstone*

Greenish grey background with powerful white veins.

### *Silestone Eternal Marquina*

With a deep black base and bright white veins, "Marquina" is one of the most exclusive and beautiful marbles found in nature.

### *Silestone Bianco Calacatta*

Combines electric thick veins with a luminous background. The new Bianco Calacatta has the most character from the entire collection. Contrast and personality that will enhance to any space that it touches. It brings a dramatic effect to either a classic or contemporary tasted.

### *Silestone Classic Calacatta*

An elegant and subtle reinterpretation of the desirable Calacatta. It stands out for its uniform grayish veins that cross the neutral background with a translucent appearance. The Classic Calacatta evokes nature thanks to its great resemblance to real stone.

### *Silestone Desert Silver*

Evokes an icy surface patterned with fine and clear veins. It offers a very balanced and uniform translucent design. Inspired by the classic and long-lasting marble trend, it stands out for its easy combination with any type of material or architectural element.

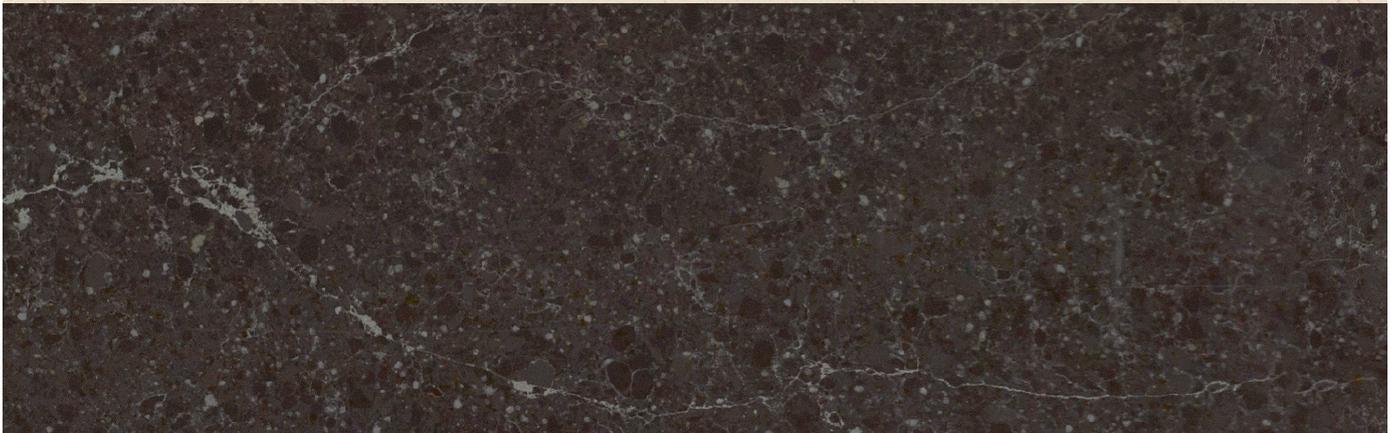

# SILESTONE®

## *Silestone Eternal Marfil*

Soft copper veined on cream background. Warm and minimalist. The Eternal Marfil is a new reinterpretation of Crema Marfil marble, a neutral colour that brings naturalness and serenity to any space. It is sure to bring long lasting beauty with its unique details.

## *Silestone Eternal Emperador*

Emperador stands out for its creamy streaks and bright touches scattered on an earthy brown background. Natural tones very in line with the trend of marble and warmer environments. Tradition and elegance that reinvents itself with a touch of sumptuousness. Make a bold statement.

The image features a dark grey, almost black, marble background with intricate, light-colored (white and light grey) veins. The veins are irregular and flow across the surface, creating a complex, organic pattern. The overall appearance is that of a high-quality, natural stone material.
